

Present boxes

The workbench

- Craft glue
- Wooden objects (butterfly, bow, flowers)
- Glitter
- Plastic eyes if using animals
- Noodle boxes (craft retailers)
- Poster paint (non toxic)
- Decorations (plastic stars, paper butterflies, stickers, buttons etc)
- Paint brush

Step 1.

Paint then decorate the wooden decorations with plastic stars, glitter, stickers or what ever you have chosen to decorate with.

Step 2.

Paint the noodle boxes all over and sprinkle with glitter. If you wish to put stickers or paper add on to the boxes, add these before using the glitter otherwise they will not stick as well. Once the boxes are completely dry, glue on the wooden decorations to the front of the boxes.

Step 3.

Fill the boxes with treats (presents, caramels, chocolates). Write whom the present boxes are for on the bottom of the boxes just incase you forget later and close the lids.

Present boxes are the perfect way to house your presents for mother and fathers day, Christmas, Easter and birthdays as well to add that special personal touch to your gifts.
