

Balloon hat

The workbench

- Craft glue
- Scissors
- 4 round balloons
- 1 long balloon
- String or hat elastic
- 2 plastic eyes
- 1 pom pom (nose)
- 1 sheet colored paper
- 2 pipe cleaner

Step 1.

Blow up the 4 round balloons to a small size, making them all roughly the same size, then blow up the long balloon to a larger size.

Step 2.

Tie the 4 round balloons together using the balloon ends; form a knot; then finish off by tying on the long balloon head so that it sits in the middle of the other 4 balloons. Tie a pipe cleaner around the base of the head for legs, then glue on the eyes, pom pom nose and the shaped pipe cleaner mouth.

Step 3.

Attach some string or hat elastic around the head at the bottom and tie the balloon hat under your chin and play.
