

Flower box

The workbench

- Flower shaped cardboard box (craft retailers)
- PVA glue
- Tissue paper (multi colored pack)
- Paint brush
- 2 tablespoons of fine sand
- Poster paint (non toxic)
- Varnish
- Dimensional fabric craft paints

Step 1.

Rip the tissue paper into small pieces and scrunch them up into balls, then place some glue all over the top and sides of the lid then push on the tissue paper balls (refer to the picture).

Step 2.

Mix 2 tablespoons of sand with a squeeze of paint and a $\frac{1}{4}$ cup of water into a bowl; mix well until the sand and paint combine to achieve colored sand. Paint the sand onto the bottom half of the box on the sides, then after it has dried apply a coat of varnish over the top to add shine and to prevent the sand from falling off the box.

Step 3.

After the varnish has dried on the bottom box, paint on some flowers with the dimensional paints all around the sides of the box, (do not paint too high up the sides or the lid will not fit back on the box).
