

Bubble bath Santa wish list

The workbench

- Red paper
- Cotton wool
- Black marker pen
- Clag or glue
- Bubble bath
- Thick cardboard
- Glitter
- Scissors
- Camera

Step 1.

Place some bubble bath into a sink or bath tub and place some of the bubbles around the child's face to form a bubble beard and take a photograph. Cut the head and bearded area out of the photo then place it onto the cardboard. Draw a body including a head, then cut it out.

Step 2

Take the photo away and place the red paper under the cut out Santa body. Trace around the Santa with a marker, do not include the hands, feet or head then cut out. Glue the red cut out Santa body, and the photo head to the cut out cardboard body then glue cotton wool onto the jacket, pants and hat areas (refer to the picture).

Step 3.

Draw a belt around the waist, some shoes and jacket cuffs. Apply glue to all the red areas and glue on some glitter then draw a red Santa sack from red paper; cut out and decorate the edges with glitter, write (my wish list) at the top and list everything that you wish Santa to bring. Glue the Santa sack to the Santa body and hang on the wall.
