

Paper chain

The workbench

- Scissors
- Tape
- Stapler and staples
- Colored paper

Step 1.

Cut the colored paper into 1-2cm strips. Make a circle with the 1st paper strip and staple it into a circle shape then thread the 2nd paper strip through the middle of the 1st paper circle (refer to the picture). Staple the 2 ends together to secure it into the circle shape.

Step 2.

Keep adding paper strips in order of color, until you have reached the required length or have run out of paper strips.

Step 3.

Sticky tape the paper chain to the roof, and the walls around the house to decorate after asking your parents first. They can also be added to the Christmas tree or used to decorate tables and chairs.
