

Hanging firecrackers

The workbench

- Craft glue
- Large sized paper noodle tubes (craft retailers)
- Glitter different colors
- Tinsel string individual strands
- Small container
- Glue brush
- Glitter pom poms (1 per firecracker)

Step 1.

Ask an adult to cut the noodle tubes in half with a sharp knife then fill a container with a small amount of different colored glitters.

Step 2.

Paste glue onto the outer side of the tube noodle then place it into the glitter container and gentle rock it back and forth until the noodle is covered with the glitter; set aside to dry and repeat the process.

Step 3.

Paste some glue onto the end of the noodle and attach the pom pom (refer to the picture) then after drying push the other end onto the end of the Christmas trees branch.
