

Christmas tree rings

The workbench

- Glitter different colors
- Glitter pipe cleaners (1 per ring) or string if preferred
- Poster paints
- Paint brush
- Small paper noodle circles
- Container

Step 1.

Paint the paper noodles different colors then place them into a container with mixed up colored glitter, shake the box slightly so the glitter covers the noodles completely then set aside to dry.

Step 2.

Thread the noodles onto a pipe cleaner until you reach the desired length (the shorter the pipe cleaner the smaller the ring will be) then secure by twisting the 2 ends of the pipe cleaner together.

Step 3.

Bend and shape the pipe cleaner into a round circle then hang over the branch of the Christmas tree.
