Colored Sand Picture

- **Paper**
- **Food dye**
- **Dry fine sand**
- **Clag**
- **Plastic gloves (optional)**
- **Plastic jars (old food containers)**

Step 1.
Mix together sand and a few drops of food dye, the more drops the more vivid color sand the sand color will be.

Step 2.
Using the clag, paste all over paper so there is an even coverage then apply the colored sand using a sprinkling motion.

Step 3.
Carefully lift up paper and gently shake to remove excess sand then leave the picture to dry completely.

Tip!
Food dye stained hands?
Mix clean sand together with liquid soap and scrub hands
